Fellow Citizens:—Another year has rolled around and we are again called upon to chronicle the events of the year in relation to our Schools.

A new furnace costing $145.41 has been put into the School House in Division No. 2, by the School Board, which seems to be a great improvement over the previous arrangement.

Other improvements are needed, such as painting and repairing School Houses in several Divisions.

As a whole the Schools for the year have been quite successful. The Fall and Winter terms were somewhat broken by sickness. Whooping cough prevailed during the latter part of the Fall and first of the Winter terms, and many scholars stayed out because they had it and many more because they were *afraid* they *would* have it.

Later on the la grippe raged to such an extent that we were obliged to close some of the Schools, before the terms were out. In the Primary School in Division No. 2, the School was reduced from 17 scholars to 4, and we closed the School during the 4th week. This of course will be made up at some future time, as well as some others that closed a week or two earlier than was intended.

You voted us $400.00 more school money this year than heretofore, a part of which is kept in reserve to make up these deficiencies.

Much interest has been shown in our village schools by the frequent visits on the part of parents, clergy, and other citizens, especially on examination days.

In some parts of the town, parents seem to take but little interest in the Schools, and frequently keep their children at home for the most trivial causes; they are very ready to find fault with the management of the teacher or the School Board, or both, without going near to see for themselves. None are so well qualified to criticise as those who make frequent visits. Some people seem to know nothing about a school until they hear something derogatory, and then they have great interest in the derogatory statement, but none in the merits of the school. Too many children are tardy, and too many get excused from school, thereby losing much valuable time. A child does not have the same interest, and cannot make the some progress who is frequently absent and tardy, that another makes who is on hand in the morning, and there every day; and frequently teachers are called poor teachers, and blamed because some scholars have not made better progress, when the facts are, the trouble lies right at the door of their own home.

The Grammar School in District No.. 1, closed its Winter term with an excellent exhibition before a large and appreciative audience, in the evening. Much hard work was done in this school, and good results followed. The schools in Division No. 2, indulged in a very pleasant sleigh-ride, returning in the evening to the Town Hall, where a good supper was served by their parents, the band being present to enliven the scene with music.

We are hoping for facilities for more advanced studies in the near future, which we think would be of great advantage to the Town, as well as to the pupils. Hoping that some may profit by these suggestions, and show a greater interst in what so nearly concerns us all, and lend a helping hand to lift our

schools up to a higher plane, we close by thanking all who have so kindly given us their cooperation in our endeavors to labor for the best interests of all concerned.
